

TOOL & DATASET PLAN

Week 1 Deliverable — Replaces IP Addressing Plan (Problem 6 has no IP topology)

Date: 10 May 2025 | Team: Muhammad Ahmed, Hamna Rizwan, Eshal Tanveer

1. Purpose

This document lists every tool and dataset the team needs to complete Problem 6 (PCAP Forensics). It also records who is responsible for installation and provides the download link for each item. Screenshots of installed tools are kept separately in the Resource Acquisition document.

2. Analysis Tools

Tool	Version	Download Link	Responsible
Wireshark	4.x (latest)	wireshark.org/download.html	Hamna Rizwan
draw.io	Web (no install)	app.diagrams.net	Eshal Tanveer
Git / GitHub Desktop	Latest	themuhammahmed-rgb/CP-P6-Intrusion-Detection: CCP-CNS2026 Problem 6: Intrusion Detection - PCAP Forensics	Muhammad Ahmed
Google Drive	Web (no install)	https://drive.google.com/drive/folders/14gZze9Fy7GDLu0kqKvr0YDulyDkpRPCI?usp=sharing	All members

3. PCAP Dataset Sources

The instructor will provide the primary PCAP file. The sources below are backup/practice datasets available immediately.

Source	URL	Status
Instructor PCAP	Provided via University LMS	Awaiting
Malware Traffic Analysis	malware-traffic-analysis.net	✓ Available
Wireshark Sample Captures	wiki.wireshark.org/SampleCaptures	✓ Available

5. Installation Status

All members will install their assigned tools by **end of Week 1**.

Screenshots of installed tools are in the **Resource Acquisition Report**.
